Takashi Kuroki Sensei, President of the Kyiv Aikido and Martial Arts Federation, has been practicing Aikido since 1989. Since 1995, he has deepened the teachings of Shoji Nishio Shihan, training directly with Nishio Sensei and continuing his progression under the guidance of Koji Yoshida Shihan, Nishio Sensei's direct student. His practice is rooted in the research developed by Nishio Sensei on Aikido as *Yurusu Budo*, through a teaching methodology based on *Riai*—the relationship and consistency between Taijutsu and Buki Waza—expressed through the study of Ken no Tebiki, Jo no Tebiki, Ken tai Ken, Ken tai Jo, and Toho Iai. Following the first seminar held in Turin in October 2025, we are honored and pleased to host Kuroki Sensei for his second seminar in Italy: a new opportunity to explore an approach to Aikido in which open-hand and weapons work are coherent expressions of the very same principles.

Special thanks to the **FIJLKAM Veneto Regional Committee** for granting official patronage and to ASD Aikido Vicenza for their organizational support.
